# ADVANCED CHARTS

Our chart system is intuitive for novice traders, yet has everything advanced investors could wish for. XOH Trader's advanced technical tools have powerful features not available to most providers such as templates, overlay charts, personalize chart view (grid, charts, price, sessions), detached and floated charts, and many more.

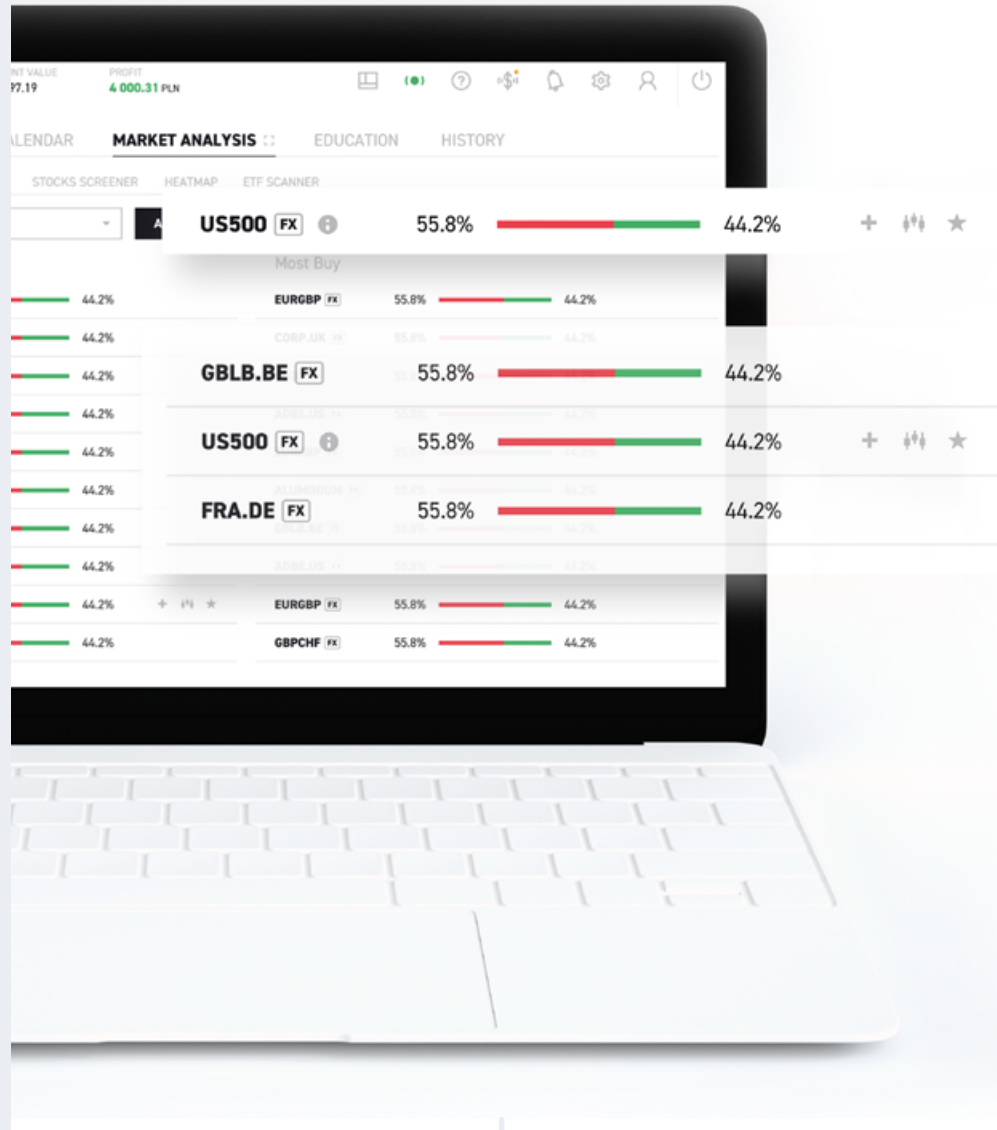

# STOCKS SCANNER

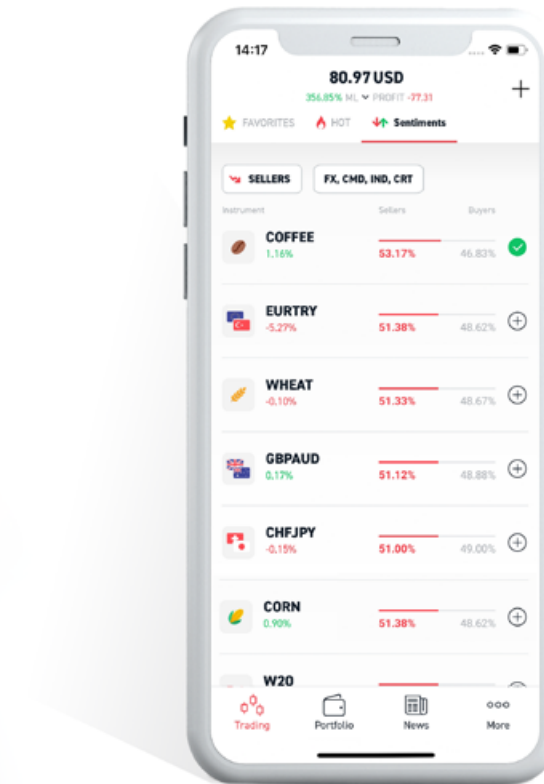

Search for stocks by industry, country and share data such as market capitalisation, earnings per share, beta, ROIC, dividend yield, Return On Equity, and other important performance statistics.

# MARKET SENTIMENT

Live market sentiment indicator displays the ratio of long versus short positions of all the traders. This tool is perfect to help with making a decision to enter or exit the market.

# HEATMAPS

## Forex

Relative currency strength heatmap table shows the percentage change in price of various currencies.

## CFDs

Industry-proven investment tool that synthesize complex data to help traders make faster and better trading decisions. All the power of big data at the service of your investments.

## TRADING TOOLS

# HOTS

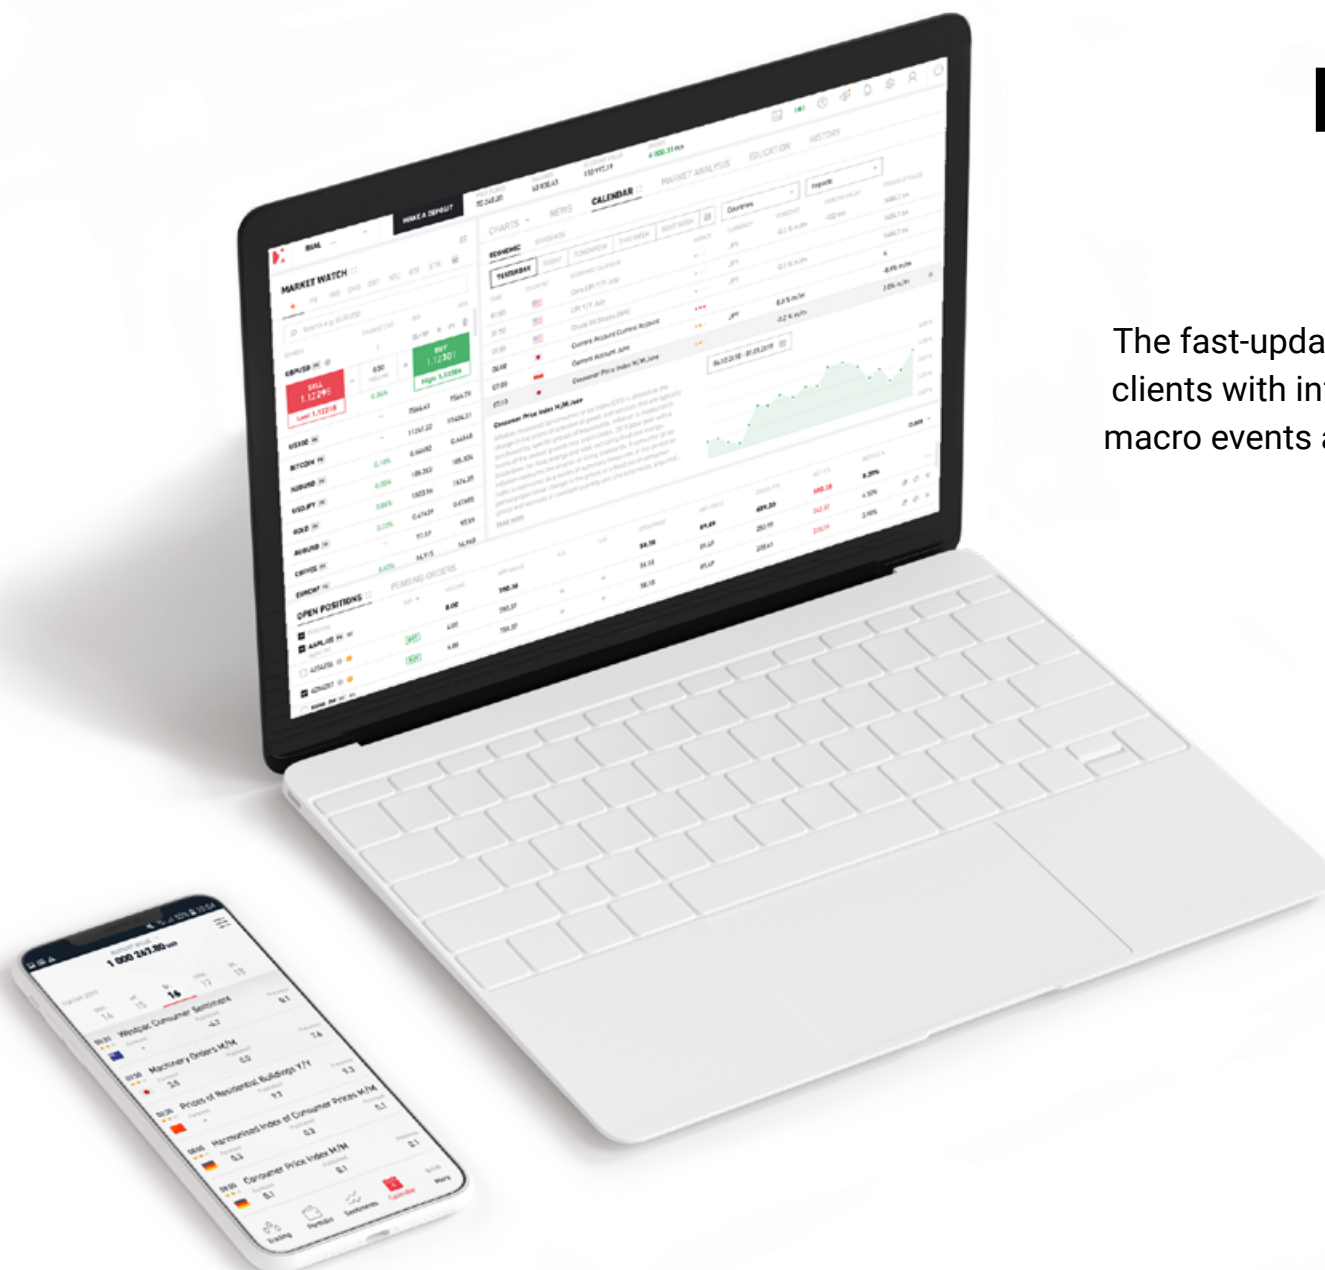

Tool helping traders to explore the biggest stock gainers and losers on the markets.

# ECONOMIC CALENDAR

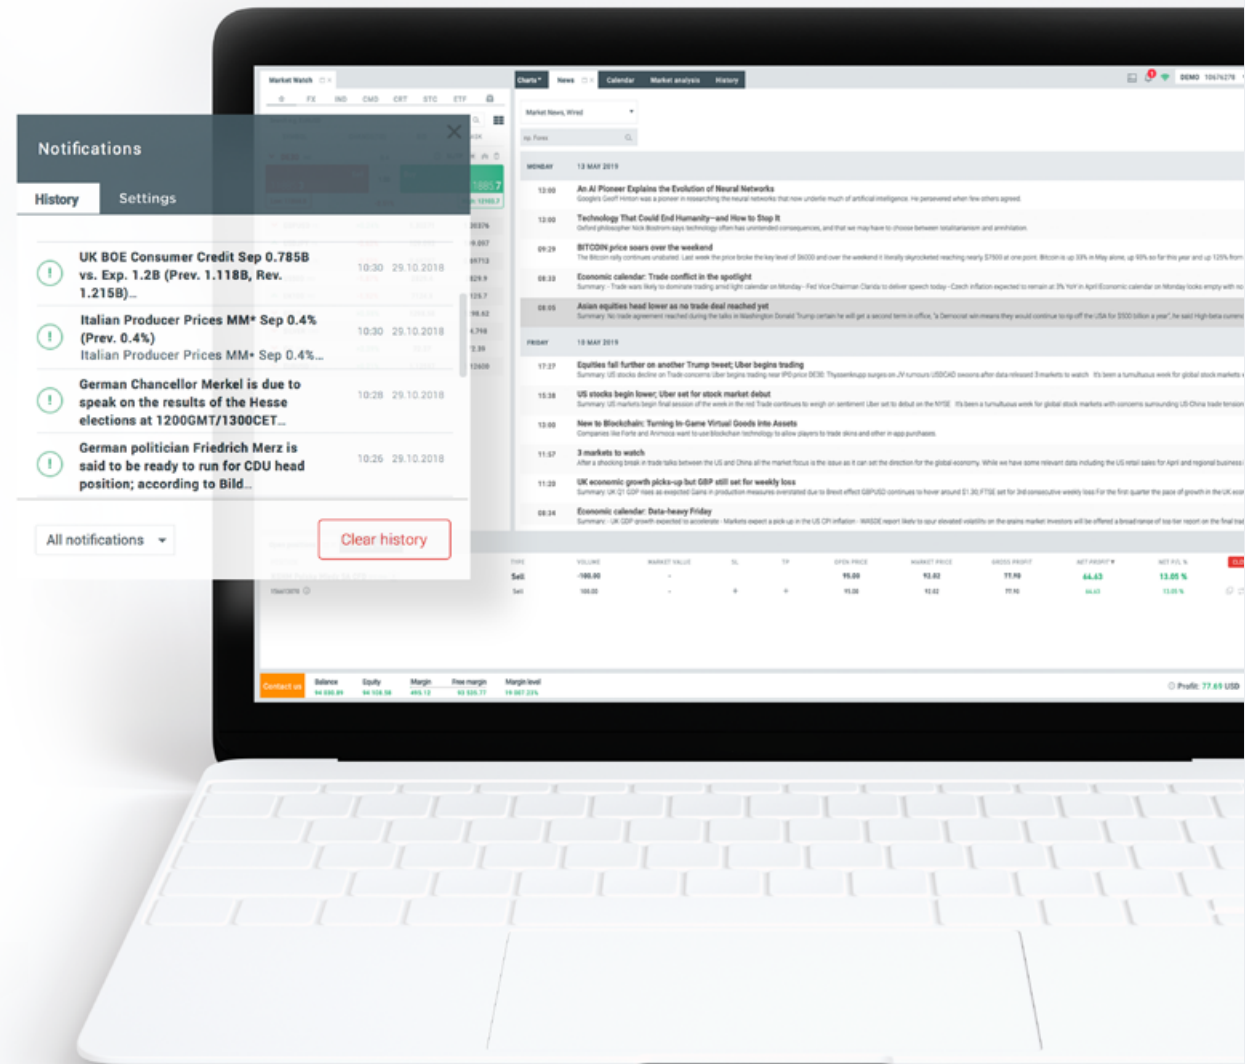

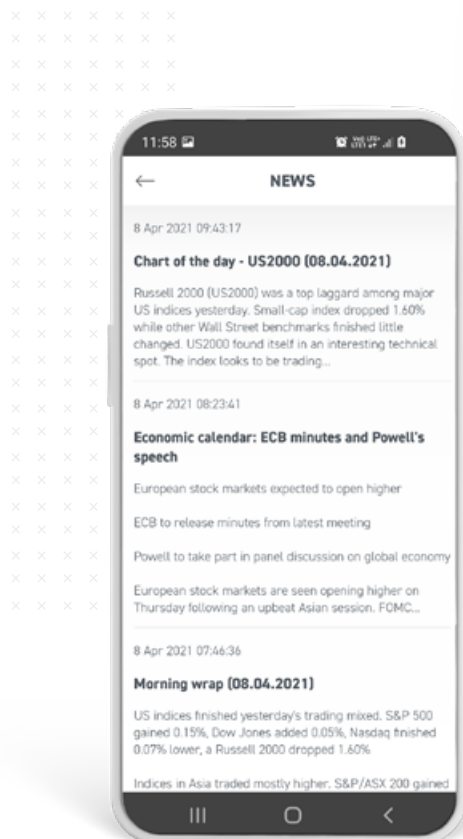

The fast-updating economic calendar provides clients with information on the most important macro events and economic indicators that are affecting the financial markets.

# NEWS

Free financial news, insights and trend analysis helping your clients make savvy trading decisions.
